

Unleash POS

Unleash the true power through technology.

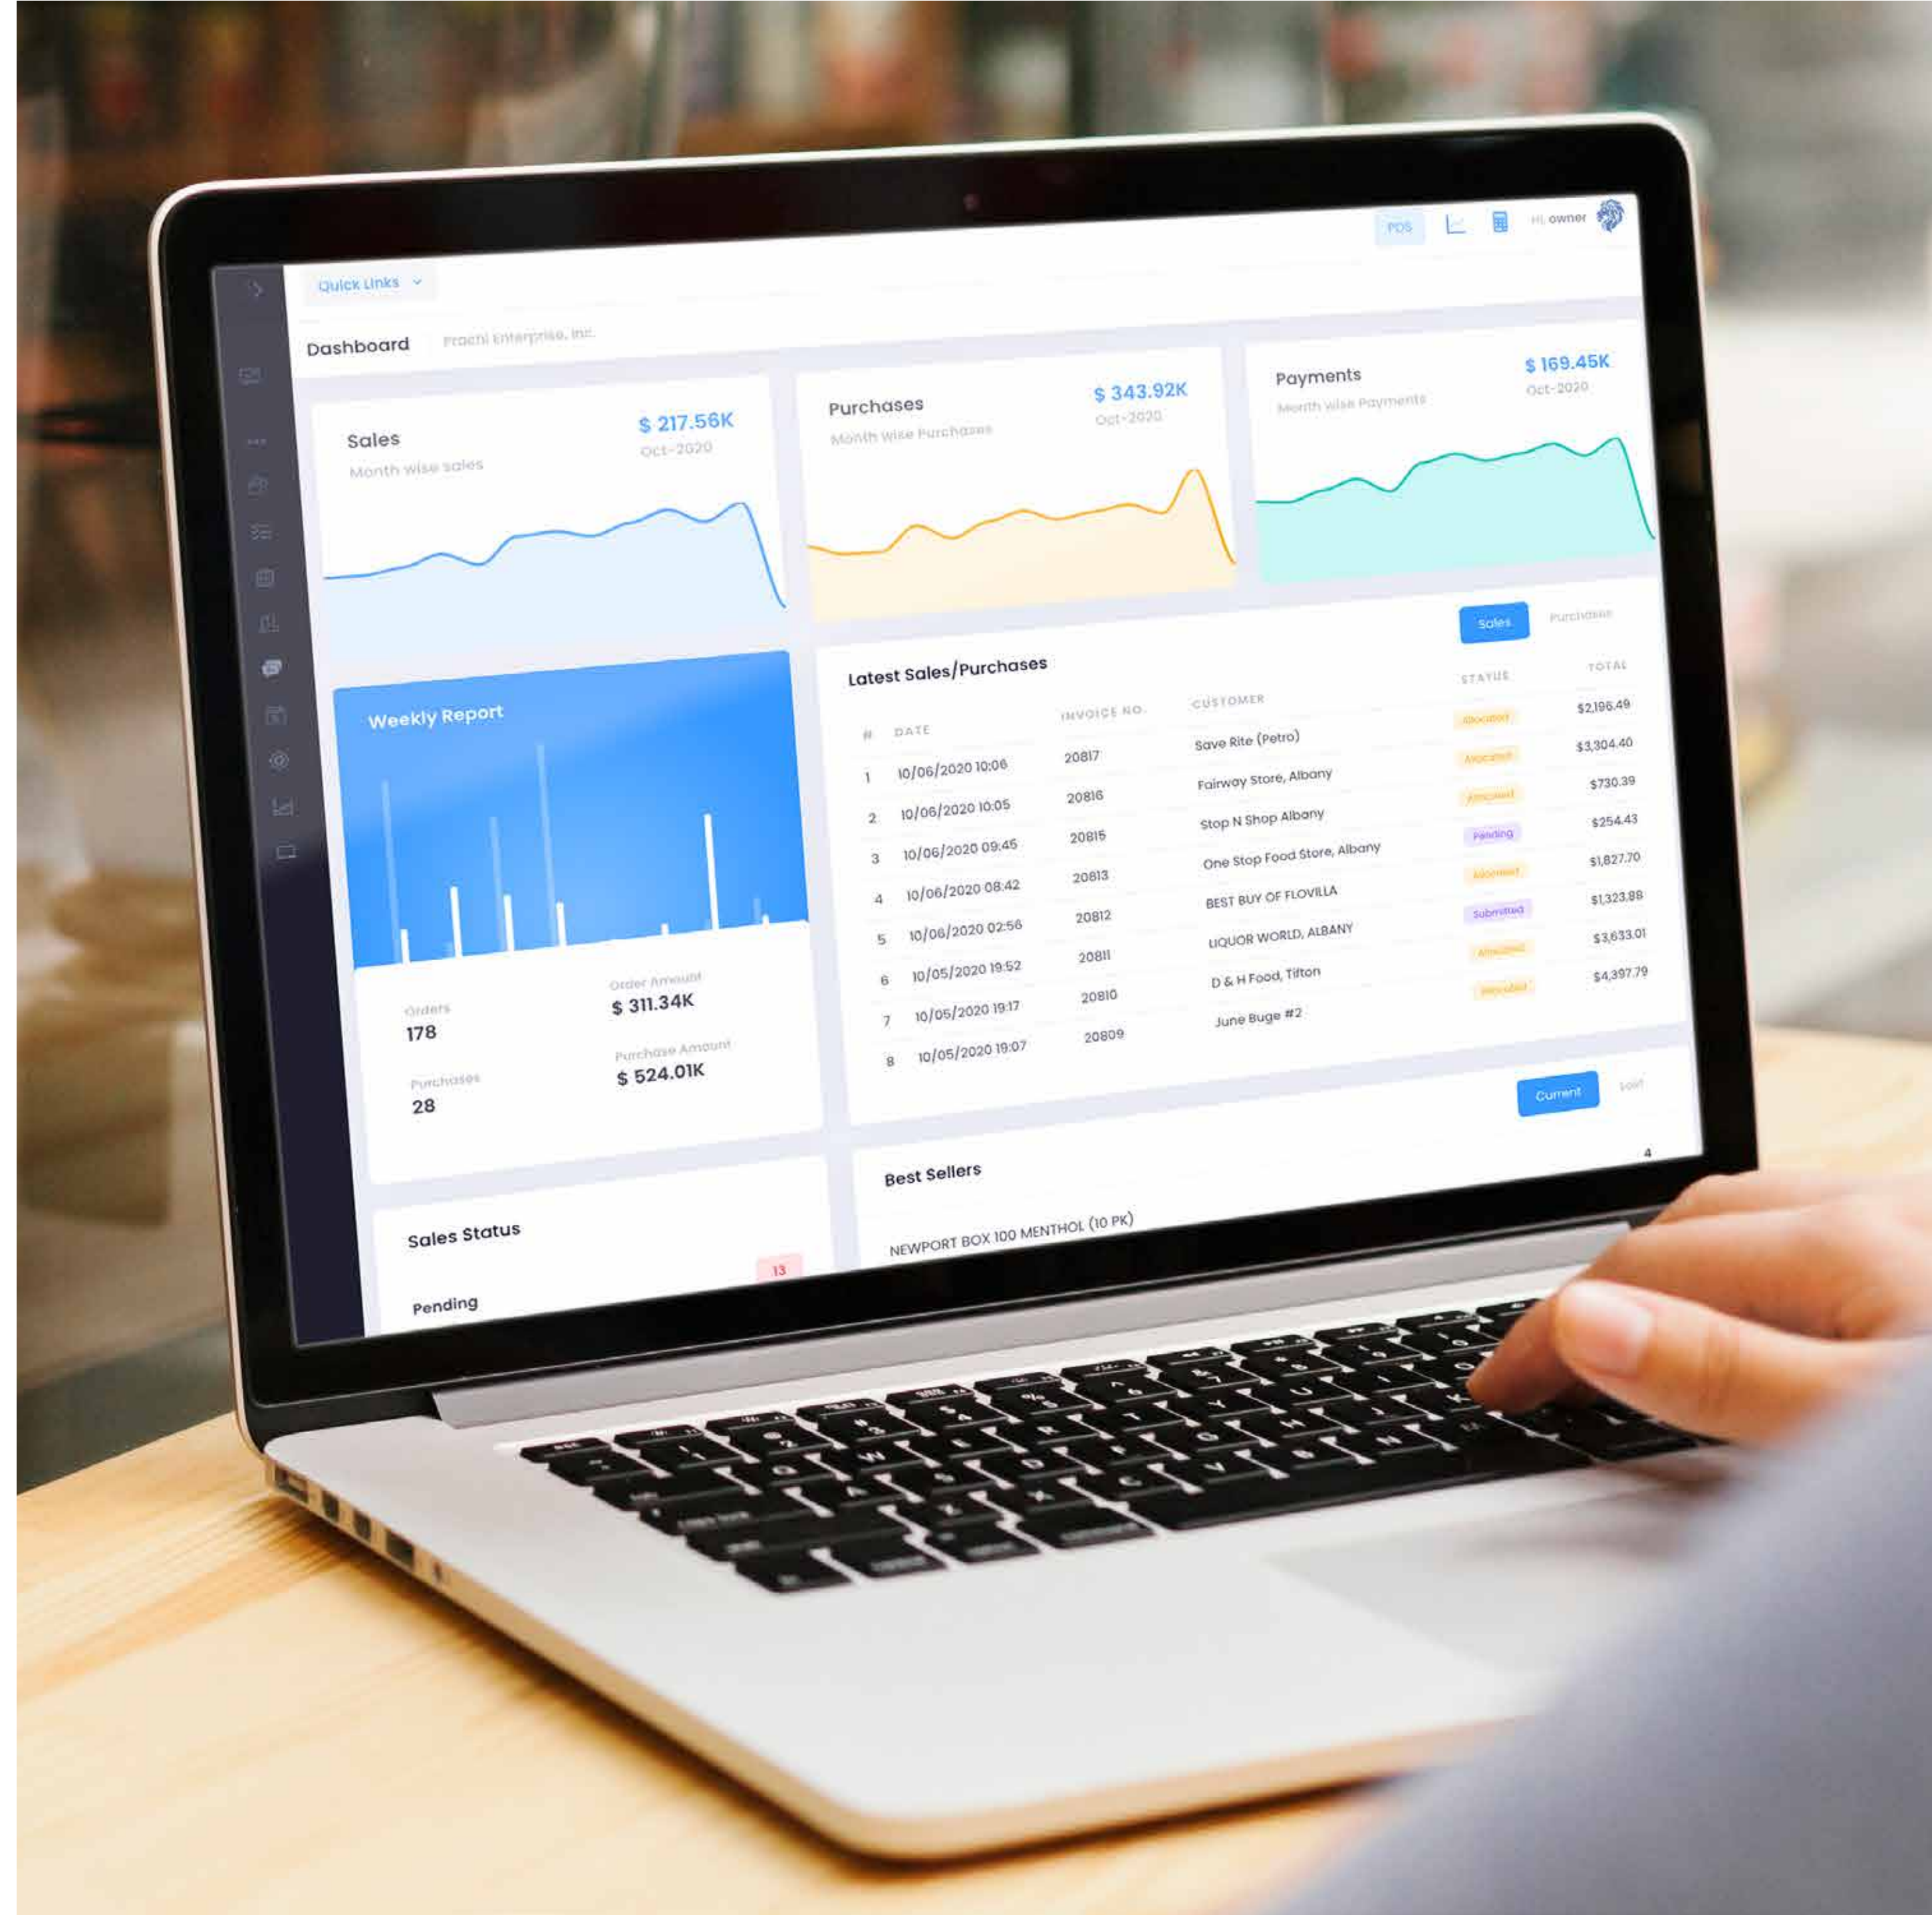

Modern Warehouse Management System

Overview

Your order work-flow is now automated

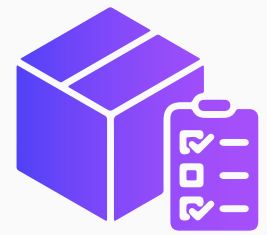

UNLEASH POS is a cloud-based point of sale (POS) and inventory management solution designed for distributors. It provides an all-in-one platform to manage sales, inventory, and customers. UNLEASH POS has different modules including an Admin app for managing sales and inventory, and a Customer app for customers to place orders.

Unleash POS is a cloud-based solution, which means it can be accessed from anywhere with an internet connection. This makes it easy for distributors to manage their business from multiple locations and devices. The system also provides data backups and updates automatically to ensure the latest features are always available.

Mobile Apps

Manage your business on the go

Warehouse Genie

With Warehouse Genie, you can optimize your warehouse management operations, increase productivity, and reduce errors.

Order Flow

Sales Flow is designed with warehouse workers in mind, providing a user-friendly interface that makes it easy to manage multiple orders at once.

Shop Link

Shop Link is designed with store owners in mind, providing a streamlined, user-friendly shopping experience that simplifies the entire ordering process.

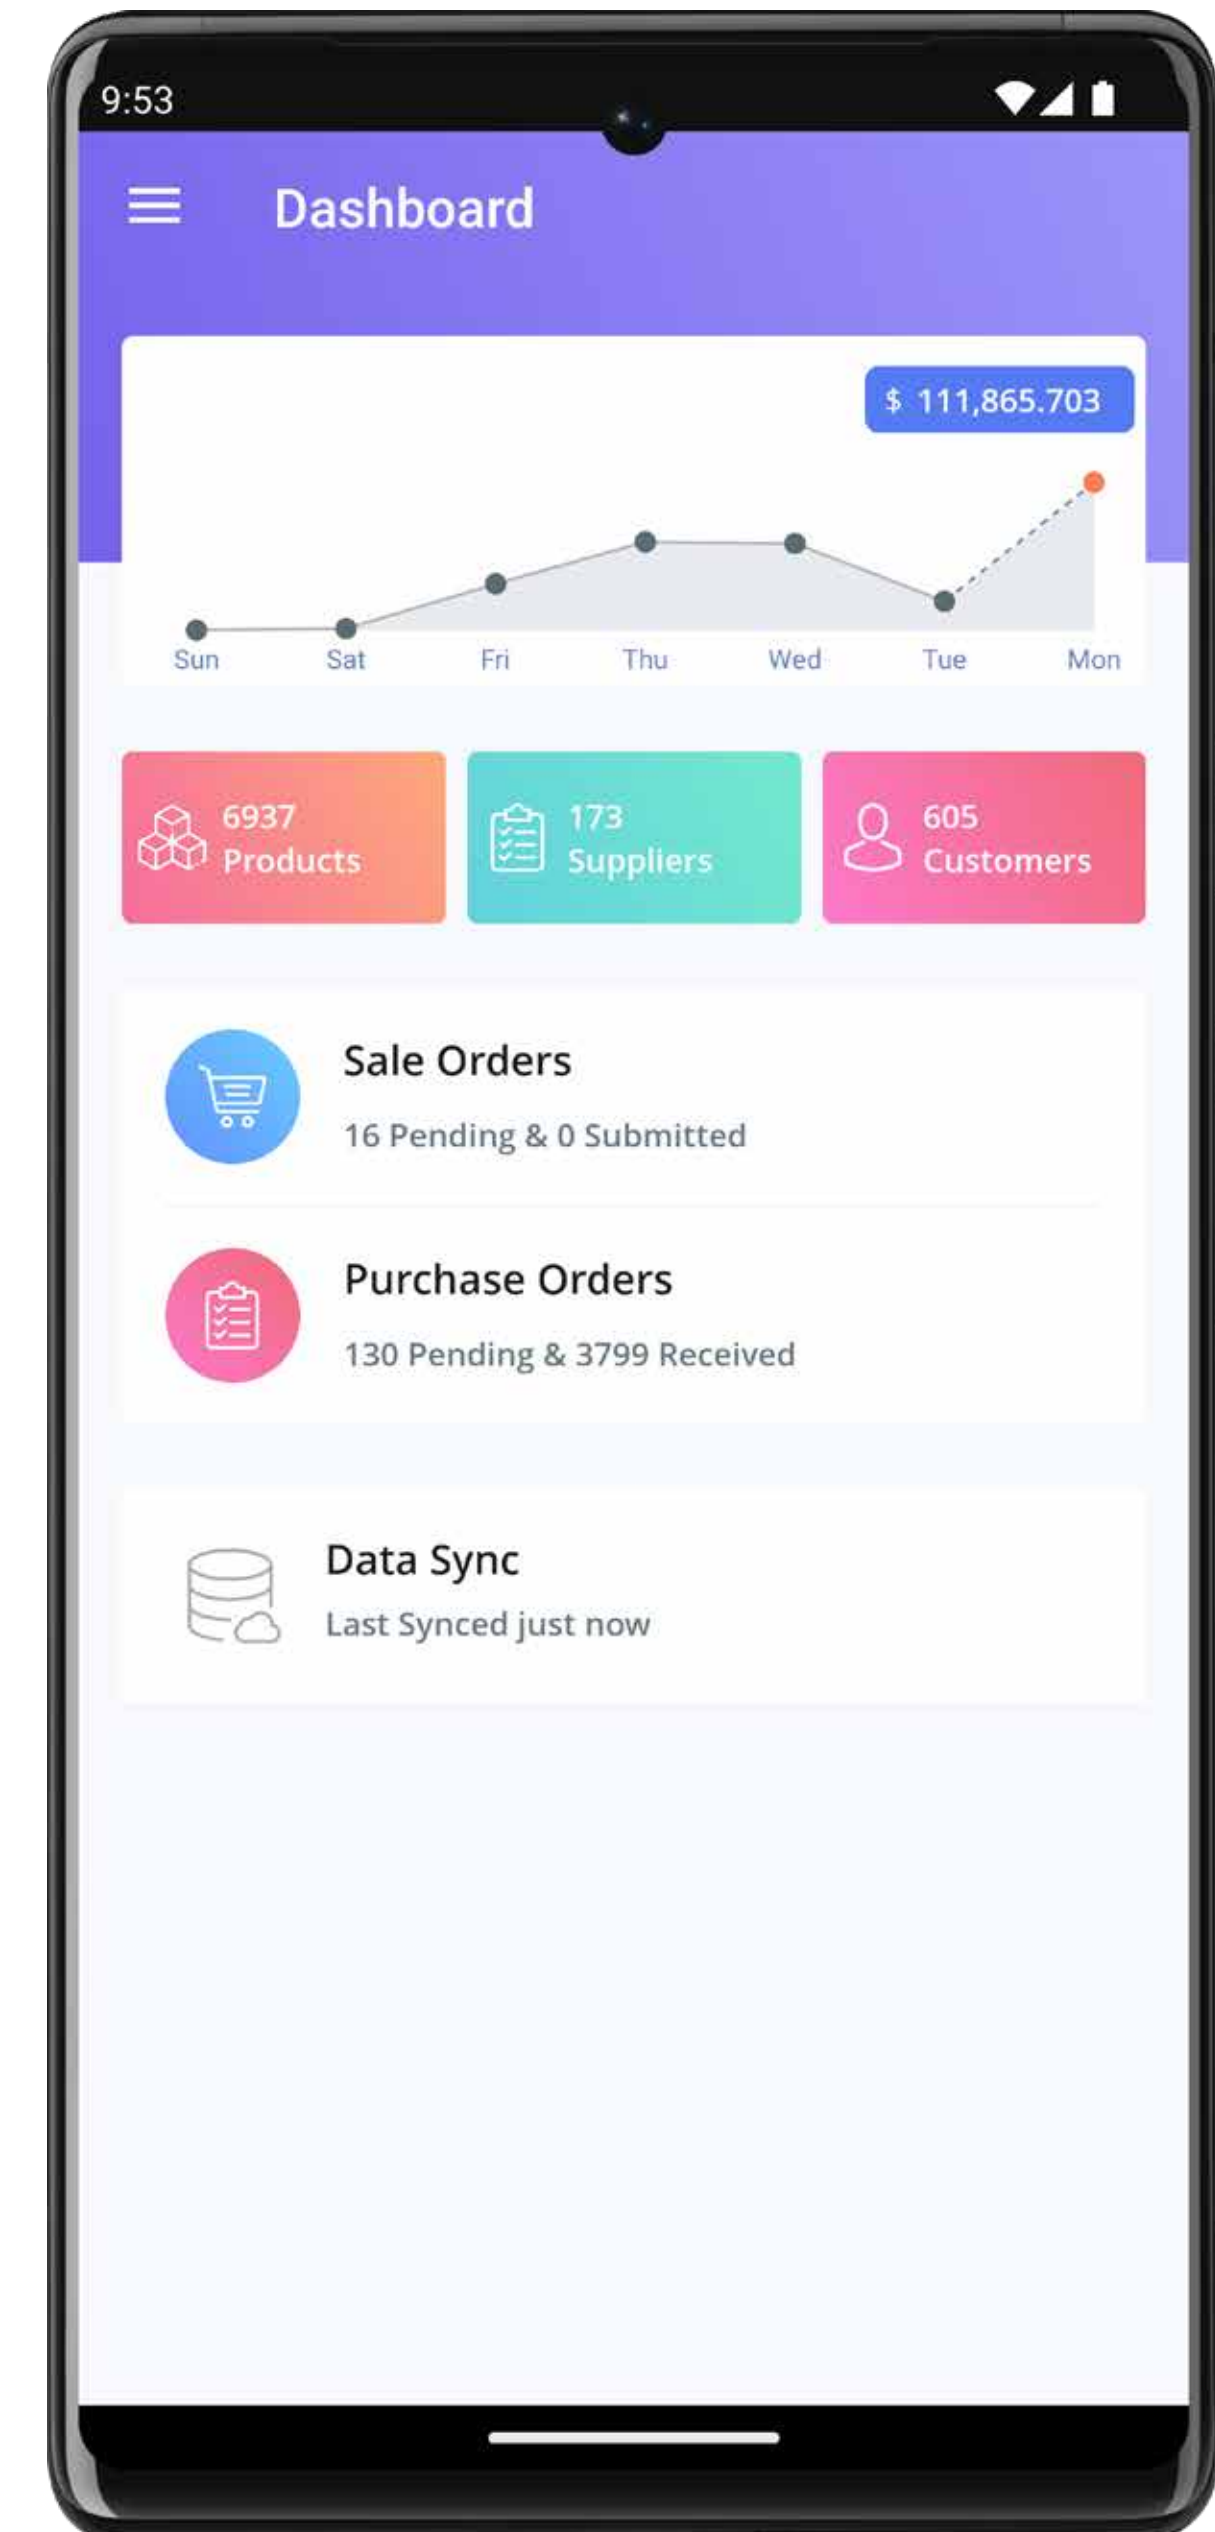

Warehouse Genie

Your warehouse in your pocket

With Warehouse Genie you can manage your warehouse operations from anywhere.

Designed with user-friendliness in mind, Warehouse Genie provides an intuitive and easy-to-use interface that makes it easy to access all the information you need in real-time. Whether you need to view inventory levels, check the status of an order, or track the movement of a shipment, Warehouse Genie provides all the necessary tools to keep your warehouse running smoothly.

With Warehouse Genie, you can optimize your warehouse management operations, increase productivity, and reduce errors.

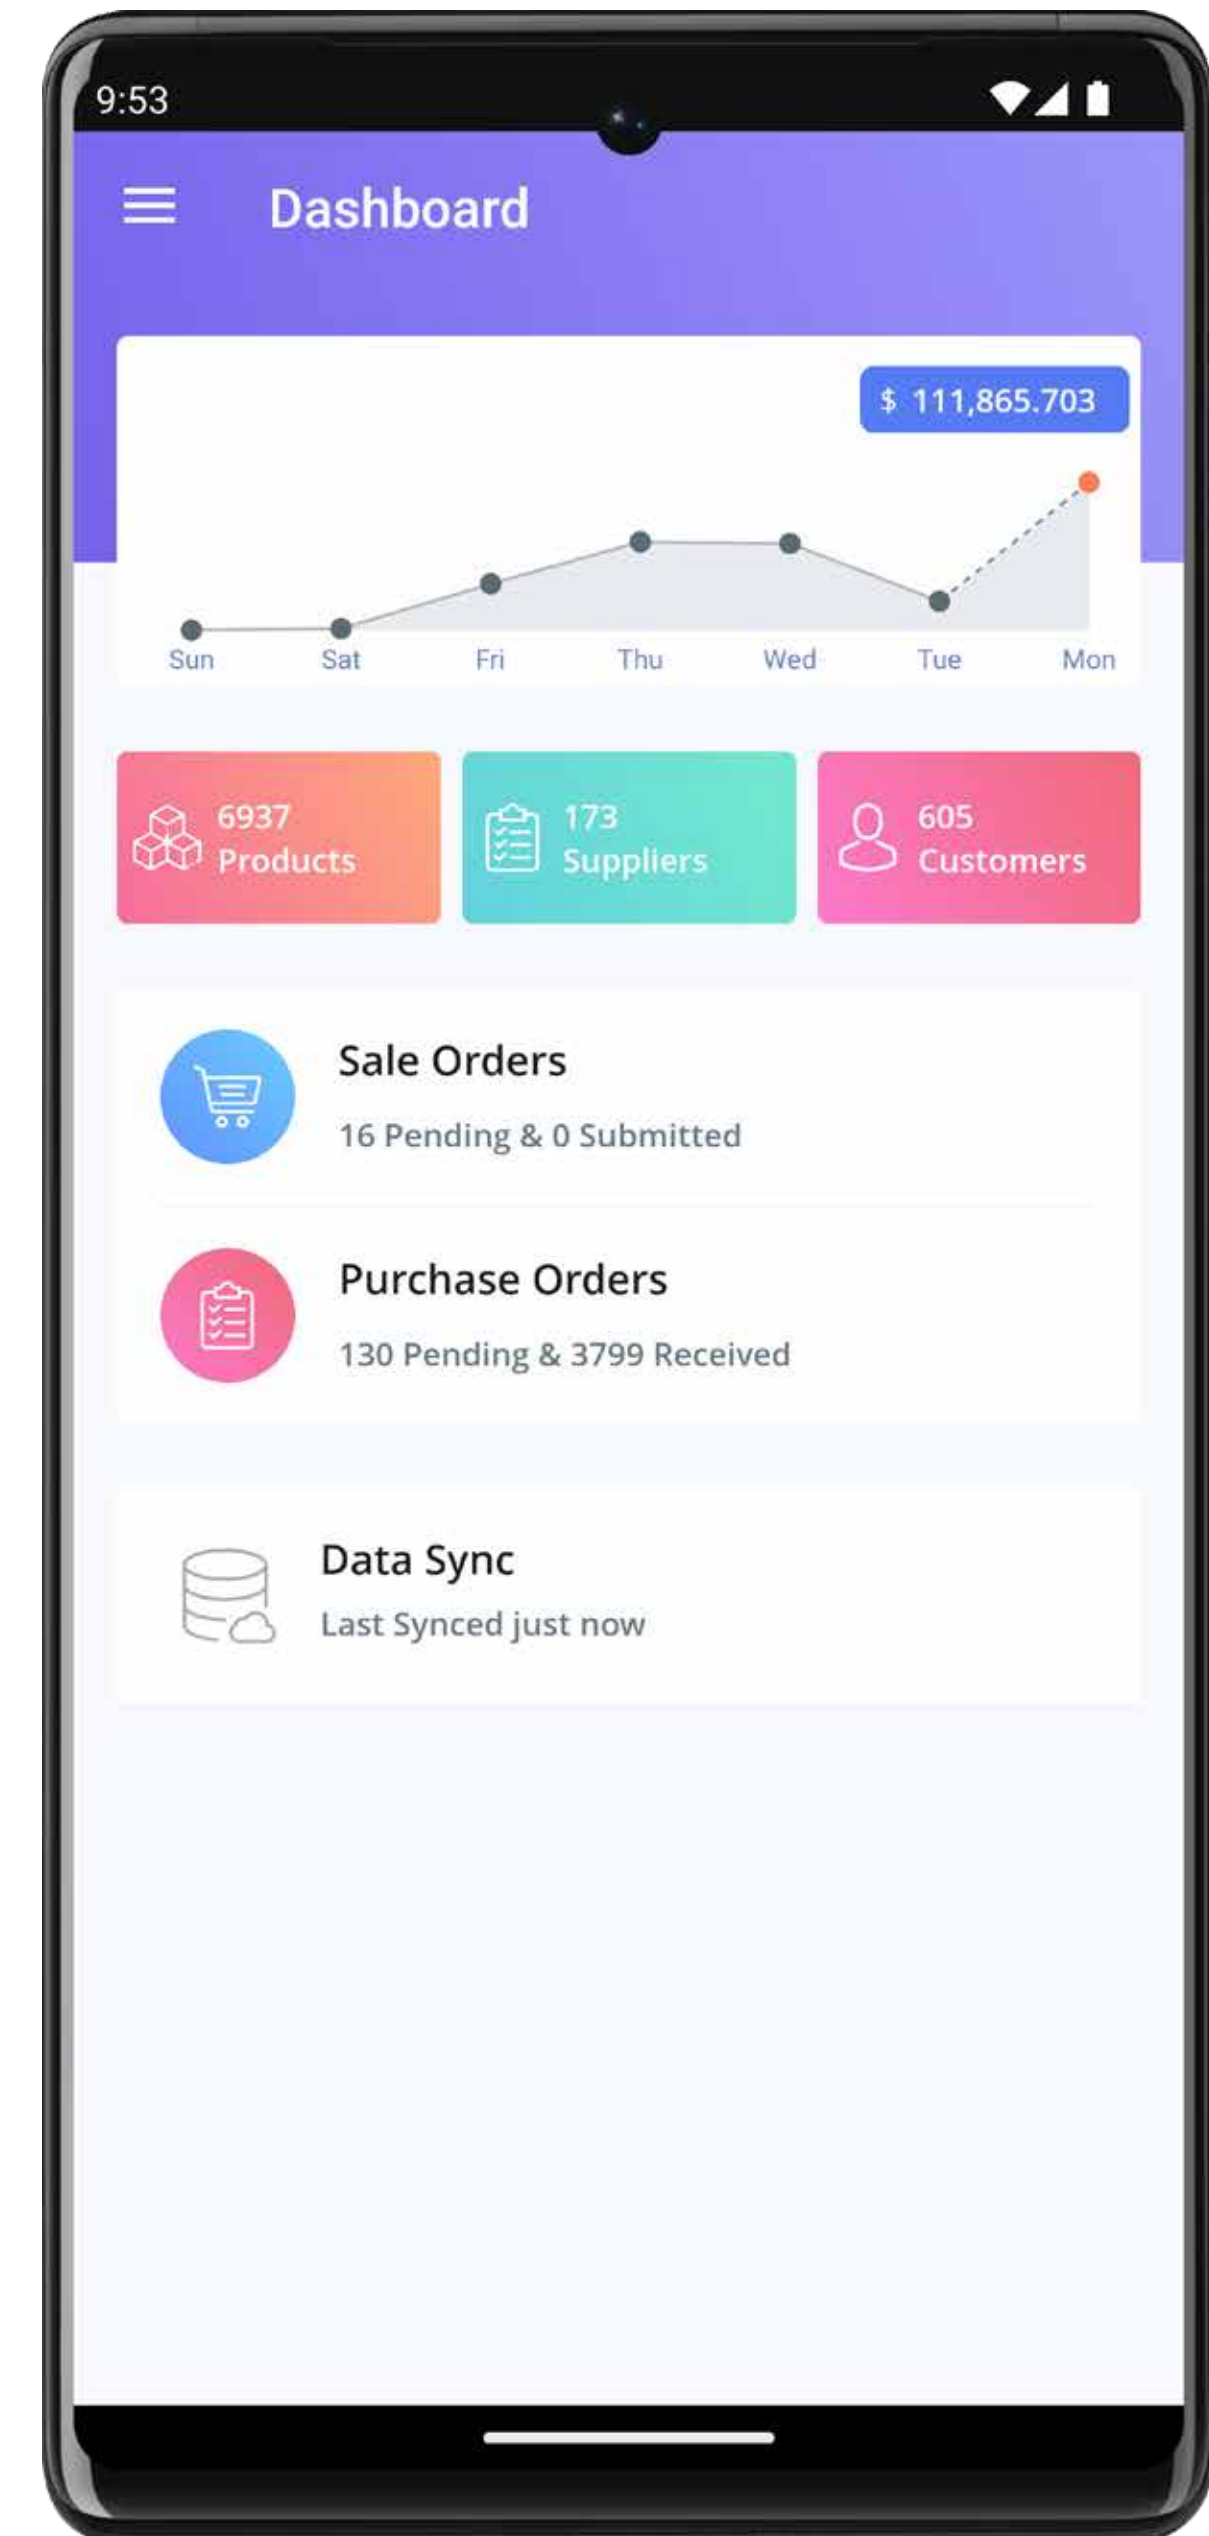

Order Flow

Tackle your order management like a pro.

OrderFlow is a powerful app that allows warehouse workers to manage orders assigned to them with ease. OrderFlow simplifies the entire sales process, making it faster and more efficient.

With OrderFlow, warehouse workers can easily access the list of orders assigned to them, view details about each order, and quickly scan the barcodes of the ordered items. The app automatically updates the order status and inventory levels.

OrderFlow is designed with warehouse workers in mind, providing a user-friendly interface that makes it easy to manage multiple orders at once.

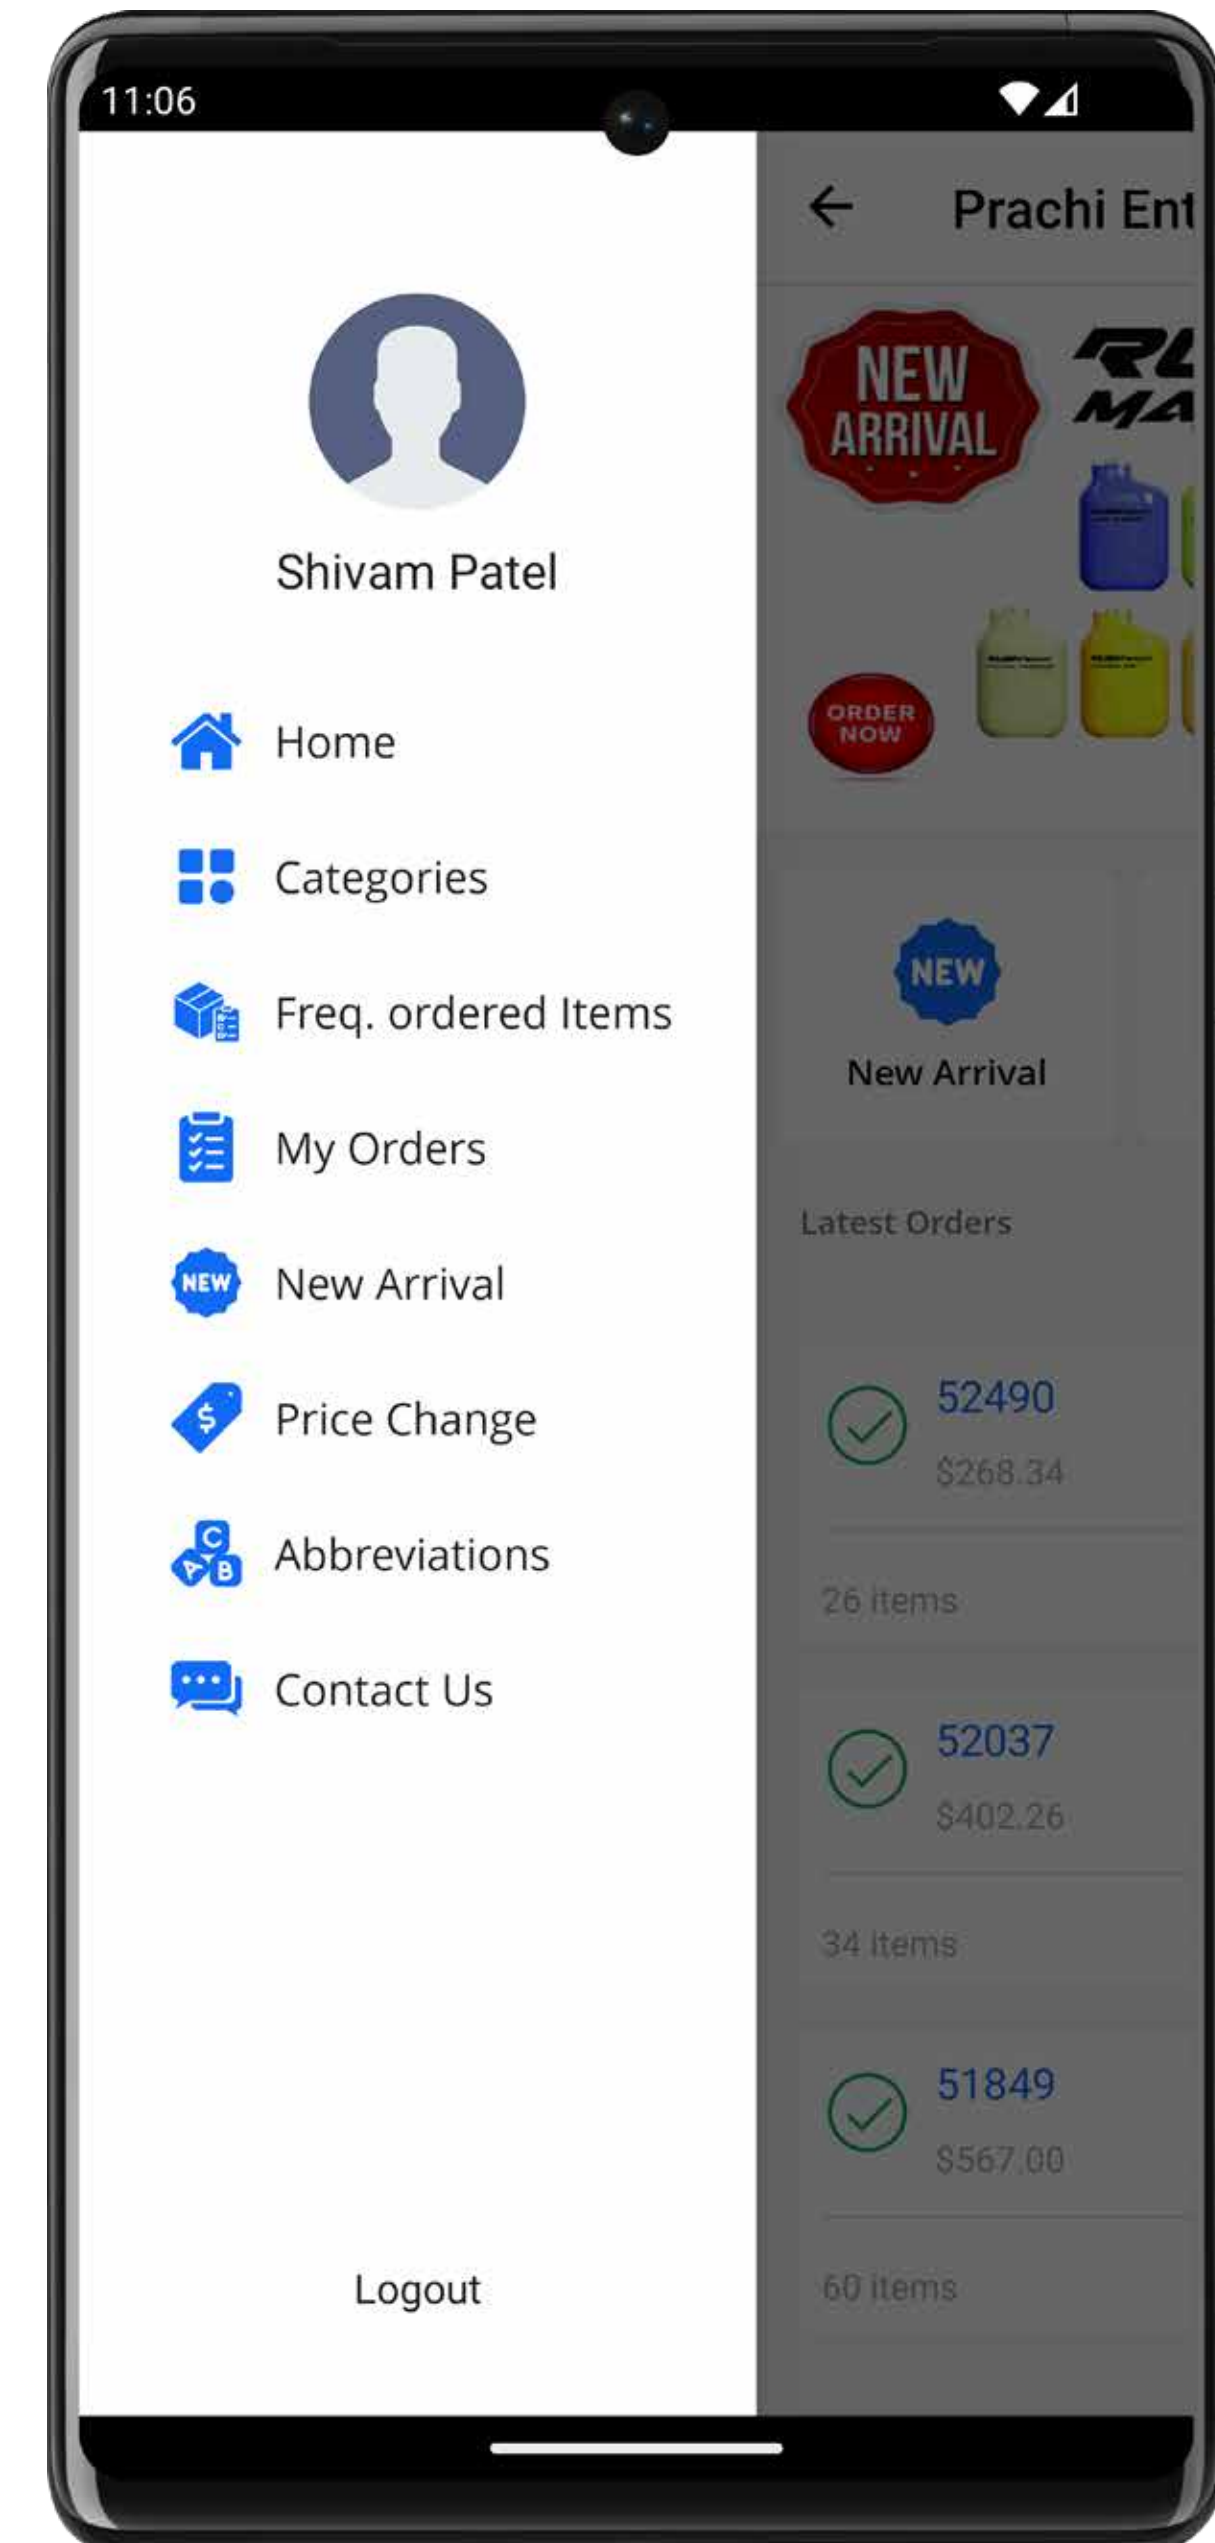

Shop Link

Seamless customer experience

Introducing Shop Link, the ultimate shopping app for store owners! Shop Link is a white-labeled e-commerce platform that allows store owners to place bulk orders directly with the distributor warehouse, making the ordering process easier, faster, and more efficient.

With Shop Link, store owners can browse a vast selection of products, add items to their cart, and place orders with just a few clicks.

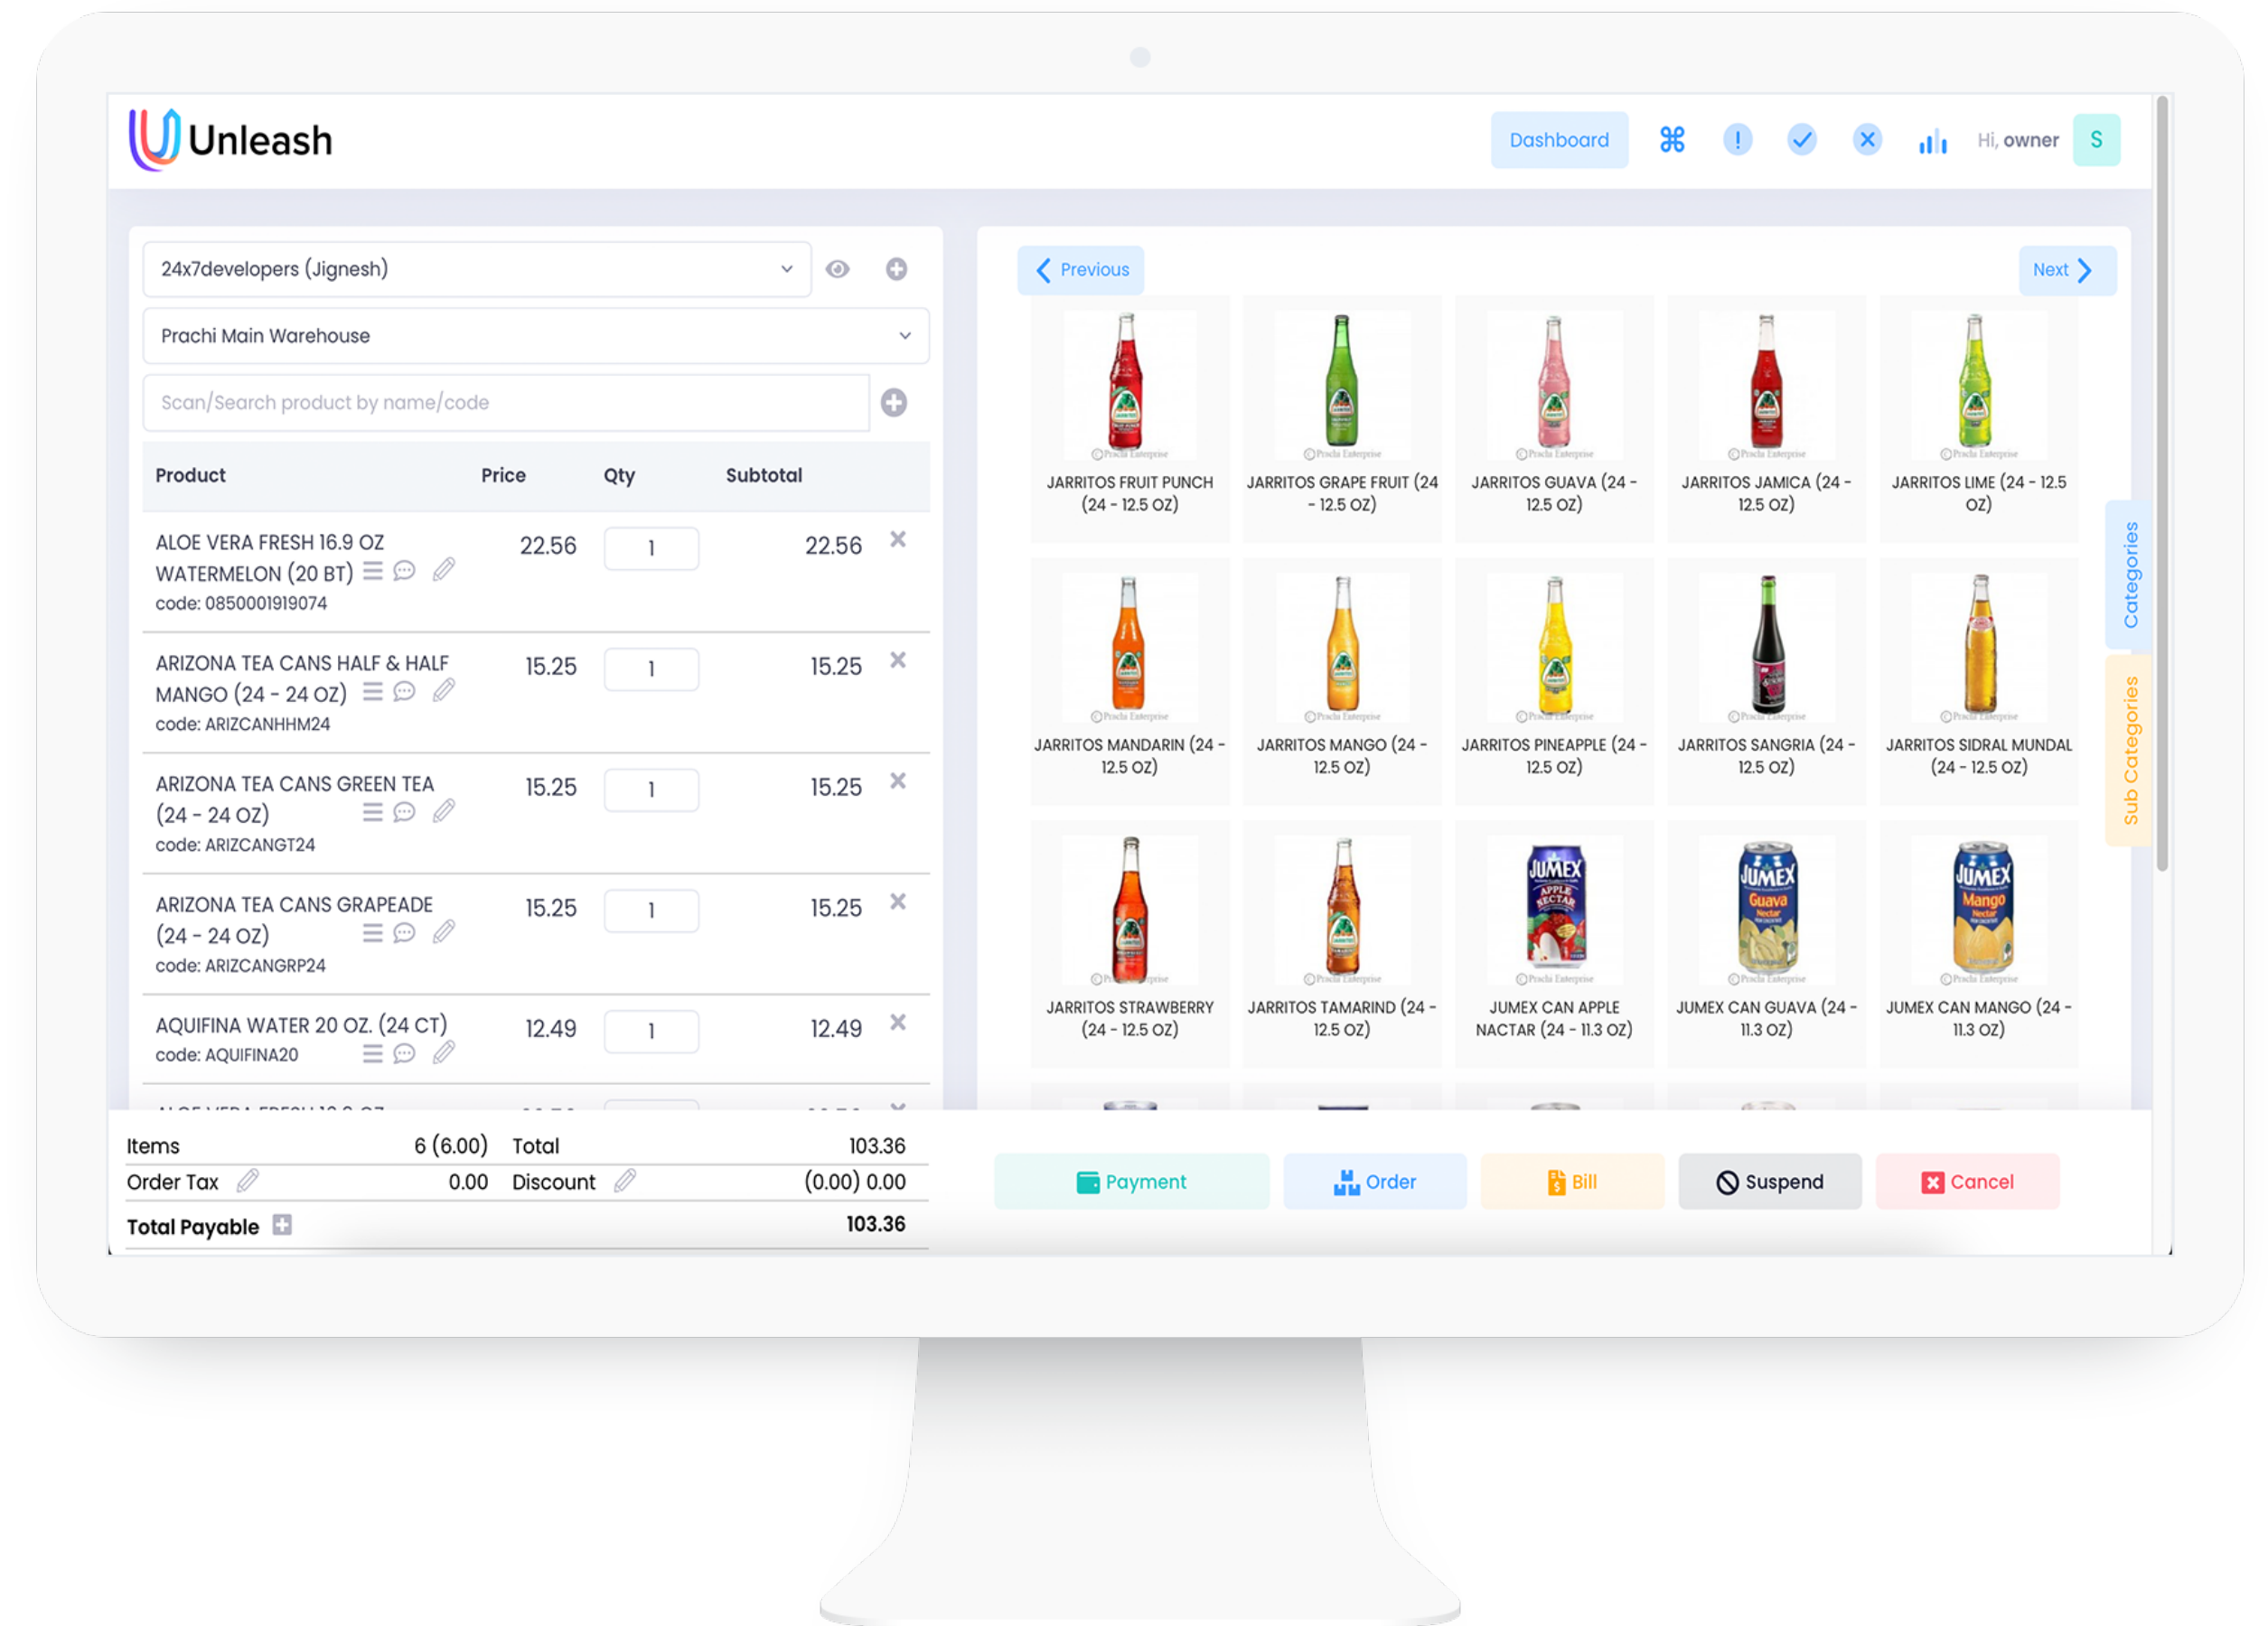

Shop Link is designed with store owners in mind, providing a streamlined, user-friendly shopping experience that simplifies the entire ordering process. Shop Link takes the stress out of ordering and helps store owners stay organized and in control.

POS(Point of Sale)

Simplify your sales with POS

Our point-of-sale (POS) system is designed to help streamline your sales processes and make transactions a breeze. With our easy-to-use interface, you can manage inventory, process payments, and track sales all in one place. Say goodbye to complicated systems and hello to a more efficient way of doing business.
